

## **Vulcan Spring to Attend D&M South**

### **Turning Design Ideas into Products**

**Telford, Pennsylvania:** Vulcan Spring & Mfg. has announced they are going to participate in IME South. The event will include six industry-leading expos – ATX, D&M, MD&M, Power Bulk Solids, Plastec, and South Pack.

Design & Manufacturing South will be hosting thousands of diverse suppliers. Major topics to look out for include Robotics, 3D Printing, and Smart Manufacturing.

Vulcan – a leader in the flat steel spring and wire form manufacturing; serves several industries from aerospace & defense, medical devices & healthcare, automotive, point-of-purchase/retail display, etc. The team is looking forward to highlighting their services and capabilities. Including, but not limited to rapid prototyping, custom spring engineering, assembly, tool & die, and customer service support.

Tier 1 OEMs, contract manufacturers, and design firms can count on USA-based, ISO-certified Vulcan Spring to consistently deliver quality products on time with a superb experience.

IME South will be held in Charlotte, North Carolina from 14 – 16 June 2022 at the Charlotte Convention Center. Vulcan will be at booth #1512.
