Vulcan Spring to Attend BIOMEDevice Boston

On the Road Again Just After MD&M West

Telford, Pennsylvania: Vulcan Spring & Mfg. has announced it is going to participate at BIOMEDevice Boston, the East coast's regional event – exhibiting biotech engineers, companies, leaders, and innovations.

In early August, Vulcan and many exhibitors had the chance to reconnect at MD&M West in Anaheim. BIOMEDevice Boston is the second in-person show Vulcan will attend since the 2020 pandemic closed all trade shows and traveling.

Based in Boston, the event will reveal the latest and greatest in biomedical technology. Vulcan's ISO 13485 team will be showcasing their custom flat and round wire steel springs for critical life-saving devices and engineering solutions.

It will be held in Boston, Massachusetts from 21-22 September 2021 at the Boston Convention Center & Exhibition Center. Vulcan will be at booth # 549.
