

Vulcan Spring to Attend Design 2 Part Show
America's Longest Running Contract Manufacturing Trade Shows

Telford, Pennsylvania: Vulcan Spring & Mfg. has announced their plans to participate at Design-2-Part Show in Raleigh – exhibiting in the region's largest design and manufacturing trade show.

The last time Vulcan attended the show was back in October 2018. Before the 2020 pandemic caused a pause to exhibitors, Vulcan had consistently participated in Design-2-Part Shows throughout the years.

Based in North Carolina, the event will feature high-quality custom parts, stock parts, and American manufacturing services. Vulcan's ISO-certified team will be showcasing their custom spring designs, capabilities, and engineering solutions that are used across diverse industries.

It will be held in Raleigh, North Carolina from 17-18 November 2021 at the Raleigh Convention Center. Vulcan will be at booth # 232.
