

From the Factory Floor to Fire Safety: Springs for Industrial and Window Shade Applications

Industrial Applications

Vulcan Spring delivers reliable, high-performance springs for the toughest industrial demands.

Key Products:

Conforce®
Springs

Conpower &
Power Springs

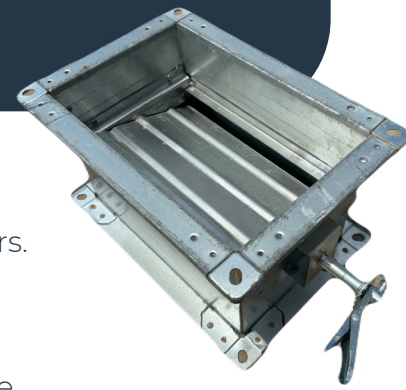

Motor Brush
Spring

Featured Applications:

- **Nail & Staple Guns:** Prevent jams with Conforce® Springs.
- **Door Closures:** Power Springs ensure automatic, smooth, safe closure.
- **Wind Turbines:** Motor Brush Springs optimize energy production.

Boost operations with durable solutions designed to exceed performance standards.

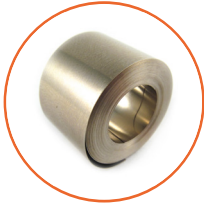

Fire Damper Systems

Protecting lives with precision-engineered springs for HVAC fire dampers.

How It Works:

- **Normal Operation:** Springs hold damper blades open for airflow.
- **Fire Detected:** Springs rapidly close blades to contain fire and smoke.

Key Products:
